

Business Requirement Document

User data export

Background

Users need a self-service export of their own data.

Objectives

- Self-service export
- No support ticket required

In Scope

- CSV export of profile and orders

Out of Scope

- PDF export
- Bulk admin export

Acceptance Criteria

- ****AC-1**** An authenticated user can request an export of their own data
- ****AC-2**** The export contains profile and order history as CSV
- ****AC-3**** A user cannot request an export for another user

Risks

- PII handling in the generated file

Assumptions

- [none]
